PROFILE

Front-end developer with 4+ years of commercial experience and primary ownership of 25+ custom eCommerce storefront theme builds for Australian clients. I turn Figma designs into responsive, functional websites using HTML, SCSS, JavaScript, TypeScript and Maropost/Neto templates. I enjoy practical problem-solving, thoughtful UI details, learning continuously and building experiences that work reliably in production.

PROFESSIONAL EXPERIENCE

Front-End Developer | LTF International D.O.O.

Aug 2022 – Present | Novi Sad, Serbia

- Act as primary front-end theme developer across 25+ custom eCommerce storefront builds, translating Figma designs and client requirements into production-ready interfaces.
- Implement core storefront pages—home, category, product, cart and account—plus additional client-specific content pages with Maropost/Neto template tags and native functions.
- Build and refine responsive UI features such as mega menus, product controls, galleries, sliders and reusable sections using HTML, SCSS, JavaScript and TypeScript.
- Balance complete theme builds with concurrent maintenance and enhancement requests across several live client websites, from small bug fixes to larger changes.
- Debug cross-browser and responsive issues; investigate performance, usability, technical SEO and Core Web Vitals as part of ongoing front-end improvements.
- Collaborate with design, project management and a senior developer to clarify scope, resolve technical challenges and support client handovers.

Freelance Front-End Developer | Fiverr / Independent Clients

Jan 2018 – Dec 2021 | Remote

- Built responsive landing pages and custom site sections for small-business clients, managing communication, revisions and delivery.

TECHNICAL SKILLS

Core: HTML5, CSS3, SCSS/Sass, JavaScript (ES6+), TypeScript

Front end: Responsive/mobile-first layouts, semantic HTML, DOM manipulation, custom interactive UI, Figma-to-code

Quality: Cross-browser debugging, Core Web Vitals (LCP, CLS, INP), accessibility fundamentals, technical SEO

Tools & platforms: Git, GitHub, npm/pnpm, Webpack, Chrome DevTools, VS Code, Figma, Maropost/Neto

EDUCATION

Bachelor's-level academic degree in Management (Business Informatics specialization) | 180 ECTS

Visoka škola modernog biznisa (MBS), Belgrade, Serbia | 2019–2022
